

**Posting Date:** January 15, 2010

**Job Title:** Regional Safety Coordinator

**Position:** Municipal Electric Utilities of Wisconsin (MEUW), a state association of 82 community-owned electric utilities, is seeking a full-time Regional Safety Coordinator to assist Wisconsin municipal employers by implementing and managing their occupational safety and health regulatory compliance program.

**Location:** The communities covered by the Regional Safety Coordinator are primarily located in Northwest Wisconsin (near Rice Lake).

**Responsibilities:** The primary function of this position is to ensure regulatory compliance through written programs, inspections, risk management procedures and employee training. This position serves municipal employees and involves regular travel to assigned municipal employers.

**Qualifications:** The successful candidate will have a minimum of three years practical experience working with Wisconsin and federal safety and health regulatory compliance; demonstrate effective written and verbal communication skills combined with excellent computer skills. The candidate must demonstrate a proven ability to effectively lead employees to foster a safe work environment by focusing on overall safety issues as well as safe job performance. Candidates must also be motivated, organized, and able to adapt to various types of projects and be prepared to work as part of a safety team. Experience working in municipal government is preferred. Completion of an Occupational Health and Safety degree or related discipline is also preferred.

**How to apply:** Please send a completed MEUW employment application (available on [www.meuw.org](http://www.meuw.org)) along with a current resume and salary expectations to: **Lisa Haen, Safety and Health Manager** at [lhaen@meuw.org](mailto:lhaen@meuw.org). *Resumes without a completed application **will not be considered. No phone calls please.***

**Deadline:** Open until position is filled.
