

36 utilities recognized for 2018 safety performance

MEUW is pleased to recognize member utilities for their safety performance in 2018. Each of these utilities were honored and received a trophy during the Awards Ceremony at the 90th Annual Conference in Delavan on Friday, May 17.

The MEUW Safety Achievement Award was developed to recognize safety achievement and to encourage proactive safety activities by member utilities; awards are given based on voluntary reporting. Utilities receive recognition for their dedication to employees' on-the-job focus to follow safety rules, use safe work practices and watch out for one another. The award also acknowledges the commitment of management and the utility governing board to provide the employees with the equipment they need to do the job safely as well as the training to maintain or improve skills, and the knowledge, time and effort to promote proactive safety practices through regular participation in the MEUW Safety program, seminars and workshops. Congratulations to all of this year's honorees.
