

Are you an experienced engineer with excellent project management skills and a passion for community improvement? If so, we want you on our team!

Assistant City Engineer

Salary Range for position \$39.42 - \$53.70

Hiring Range \$39.42 - \$44.75 per hour with competitive benefits

The City of River Falls is looking for an Assistant City Engineer with five or more years of relevant experience. Candidate must enjoy working in a fast-paced, team-oriented, and supportive environment.

Responsibilities include:

- Performing professional engineering work in connection with planning, budgeting, design, construction management, compliance and maintenance of all City roads and building infrastructure.
- Acting as trusted advisor and internal professional engineering consultant to all City departments on complex technical and multi-party projects and plans.
- Reviewing construction plans for development review, utilities, and maintenance.
- Managing budgets in the engineering division.
