

The City of Hartford, WI seeks a City Engineer to provide comprehensive civil engineering services including its water and wastewater utilities and storm water operation. You will perform managerial, administrative, and professional work in planning, organizing, directing, and supervising the City's Engineering Dept. This is a senior management position with significant administrative responsibilities, as well as oversight of the City's ongoing construction projects and long-term capital improvement program.

Position requires a minimum bachelor's degree in civil engineering along with a Wisconsin P.E. designation and significant civil engineering experience.

Starting salary range of \$90 - \$100 DOQ plus great benefit package.
