

Applications are being accepted for a full-time Electrical Power Distribution Instructor at Moraine Park Technical College, Beaver Dam campus. The primary teaching responsibility will be Electrical Power Distribution, however, class assignments and locations may vary from term to term. This instructor may be asked to teach at various sites within the Moraine Park District to include campus, center and business locations, and may be required to teach on evenings and weekends. This position reports to the Associate Dean of Trades.

Applications will be accepted until the position is filled.

A qualified candidate would begin: August 16, 2021
