

WATER OPERATOR OR WATER OPERATOR-IN TRAINING POSITION

Jefferson Utilities is seeking applicants for the position of full-time water operator or water operator-in-training. Preferred candidate should possess the desire and aptitude to acquire the skills and knowledge needed for employment with the Jefferson Utilities' water department. Work would involve learning the following: high capacity wells and associated equipment, pumps, chemical feed systems, SCADA systems and controls, pressure control and regulating valves, distribution system components and water storage facilities and all other duties as assigned. Wisconsin Dept. of Natural Resources certification in distribution and groundwater at grade level 1 is required for water operator status and permanent employment. Other Wisconsin Dept. of Natural Resources certifications are desired. Applications are available at the utility office located at 425 Collins Road and online at www.jeffersonutilities.com. Applications will be accepted until the position is filled. Send to the Utility Manager, P.O. Box 396, Jefferson, WI 53549 (920-674-7711). Pre-employment drug testing required. Equal Opportunity Employer.
